Creative Advanced CSS Animations [Udemy](#)
Bachelor's Degree in Art/Art Studies,
Publishing.
The National Technical University of Ukraine
"Igor Sikorsky Kyiv Polytechnic Institute"

I'm a Junior Frontend Developer with a strong UI/UX background and a diverse portfolio of programming projects. I pay close attention to detail to ensure your projects work well and look great. I enjoy problem-solving and have an analytical mindset to tackle issues effectively. Additionally, I have 8 years of experience in the IT field, including collaborating with remote teams in product companies across various time zones.

<> Frontend

Multi-Step Subscription Form

[Project link](#) 2023 - Pet project

Created a responsive four-step form using JavaScript and React, with RegEx validation for input accuracy. Styled it using SCSS and ensured user-entered data is stored until submission.

Connect Four Game

[Project link](#) 2023 - Pet project

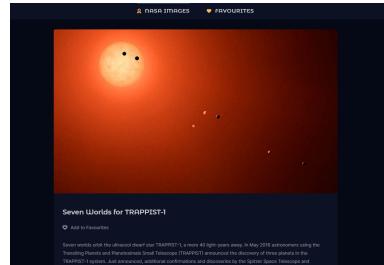

Built a web game using jQuery, featuring responsive design, HTML/SCSS animations, and local Storage for game data. The game offers both player-vs-player and player-vs-computer modes with a turn-based timer. Focused on clean code principles when developing.

NASA Articles

[Project link](#) 2023 - Pet project

Utilized the NASA API to retrieve stunning images and articles, creating a user-friendly website. Users can read and save their favorite articles, which are stored in Local Storage. The website features a fully responsive layout using classic HTML and CSS, while the underlying mechanics are implemented in pure JavaScript, following a clean code approach.

☒ Design

UI/UX Designer

2015 - 2023 - Uprise Health, Competera, Artkai, Eleken, Freelance

Offered end-to-end support in enhancing user experiences within product companies and design studios. This included designing websites, web applications, and mobile applications. Key skills include user research, competitor analysis, creating user flows, developing user scenarios, customer journey mapping, wireframing, prototyping, establishing design systems, visual design (UI), and providing support to development teams. Proficient in remote collaboration with teams worldwide, primarily in Australia and the USA
